DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 33 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 33 recites the limitation "said alignment" in line 10. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

2. Claim 33 would be allowable if rewritten or amended to overcome the rejection under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
3. The following is a statement of reasons for the indication of allowable subject matter:

The prior art does not disclose applicant's "semiconductor device," particularly characterized by the last 4 lines of claim 33, which distinguish applicant's invention from prior art in that a protective film covers an upper surface of a ferroelectric film of a ferroelectric capacitor and also covers sidewalls of an upper electrode wherein the upper electrode has a smaller area than the ferroelectric film of the ferroelectric capacitor (and so the protective film also covers the interface where the ferroelectric film meets the upper electrode of smaller area) [e.g. Figs. 20B, 23D, etc.].
